Q: Creating 2 columns and adding their widths together in CSS I have 4 divs. The first 2 are centered. The next 2 are also centered, and I'd like them to be part of the first pair. The width of the innermost pair is different from the width of the other 2 pairs. I'd like to center the 3rd pair in the same way as the first pair but also give them a fixed width. But as you can see, the widths of the 3rd pair are not perfectly centered. #outer {
